

DWH NEW DELHI NEWSLETTER

SEPTEMBER 2020

FOCUS: CITIES AND CLIMATE

By 2050, urban population will increase by 2 billion people, and about 68 percent of the world population will be living in urban areas. With rapidly developing urban conglomerations comes the need for climate-neutral cities in India as well as Germany. Green urban mobility is a key aspect of the cities of the future. The Indo-German research cooperation on sustainable transport and green mobility has a long-standing history. The latest cornerstone in this was the Joint Declaration of Intent on the Indo-German partnership on Green Urban Mobility.

SPOTLIGHT

Indo-German Cooperation for the Future of Green Mobility in India

Germany will engage in scientific cooperation and provide Euro one billion to support improvements of green urban mobility infrastructure and smart mobility solutions in Indian cities. What does this mean for the future of green mobility in India?
