FOCUS- SOCIETY IN TRANSITION: IMPACTS OF THE PANDEMIC

Exactly two years since the COVID-19 outbreak, Coronavirus is still proving to be one of the greatest challenges that the modern world has ever faced. Its impact has been felt on all areas of life – personal and professional, social and political, economic and academic. Here are perspectives from India and Germany to understand several aspects that have influenced the society.

Social Science Research on the Pandemic in India and Germany: An Overview

The COVID-19 pandemic has unleashed a global health emergency, which has led to a crisis of historic magnitude. Examining how the situations in India and Germany unfolded at the time of adversity, we discuss the social and economic impacts of the virus on the lives of people.

COVID-19 and Public Health in India

India, like the rest of world, has been battling with the virus right from the onset of the pandemic. With strict guidelines issued by the government at the time of emergency, how did the indian healthcare system fare in the last months? What were the economic costs of long lockdowns during this period? Here's what experts have to say.

Civil Society in the Corona Crisis in Germany

Destruction caused by the pandemic has increased the strain on healthcare systems and raised awareness for a need of solidarity within the communities. On the other hand, we notice divisions in the society concerning the denial of a crisis. This discrepancy raises the need to evaluate the implications for social cohesion and polarisation in Germany.
